# CHEMISTRY - KITCHENS TO ROCKETS

Saturday, October 16, 2004

10:00 a.m. – 3:00 p.m.

Personalized  
Souvenir  
Photos

"Fly" a  
Flight  
Simulator

The NASA Glenn Visitor Center Week★ with “Kitchens to Rockets” Dorothy Lukco, Research & hands-on demonstrations for students Grades 2-6 at 11:00 a.m. and 1:00 p.m. The hour-long program will give students the opportunity to understand that the kitchen is actually a well-equipped laboratory where we measure chemicals, use them to run reactions and produce useful (and tasty!) products. Students will learn why bread rises, how iron gets into cereal and make spaghetti dance! The day will include special chemistry-related programs, kids’ “Make & Take” craft activities, free NASA decals and posters and “Picture Yourself in Space” digital photographs for the entire family!

★ To learn more about National Chemistry Week activities around Cleveland check out the American Chemical Society Cleveland Section events at [http://www.csuohio.edu/cleveland\\_acs/ncw.htm](http://www.csuohio.edu/cleveland_acs/ncw.htm)

- ❖ Advanced registration guarantees admission to 11:00 a.m. or 1:00 p.m. presentations – call (216) 433-9653
